

BHUMIT VASAVA

Aspiring AI Engineer | Full-Stack Developer | Computer Vision & LLM Integrations | Scalable System Architecture

📞 8780096080 @ vasavabhumbit4@gmail.com 🔗 <https://www.linkedin.com/in/bhumbit-vasava/>
🌐 <https://bhumbit-vasava-portfolio.vercel.app> 📍 Vadodara

SUMMARY

Full-Stack Developer and IT Engineering student specializing in building scalable, AI-integrated web applications. Proven track record of designing, developing, and deploying full-stack solutions using React, Node.js, Firebase, and cloud deployment platforms. Resourceful problem-solver with hands-on hackathon experience, dedicated to delivering clean, efficient, and user-centric software architectures.

TECHNICAL PROJECTS

Vocaberry

Full-Stack Developer (Independent Project)

- 📅 01/2026 - 02/2026 📍 Vadodara, India
- Designed and built a scalable language learning web application utilizing React and Node.js to enhance user engagement.
 - Architected secure cloud infrastructure using Firebase Firestore and Authentication, enabling real-time data synchronization and robust user protection.

DubVibe Pro

AI & Computer Vision Developer (Independent Project)

- 📅 02/2026 - 06/2026 📍 Vadodara, India
- Engineered an automated media processing pipeline integrating computer vision models to streamline video dubbing workflows and reduce manual processing dependencies.
 - Optimized data flow for real-time video processing, reducing manual dubbing times for digital content.

CORE GYM

Web Application Developer (Independent Project)

- 📅 05/2026 - 06/2026 📍 Vadodara, India
- Developed a responsive, end-to-end fitness management web application with modern frontend technologies.
 - Deployed a production-ready application architecture using Vercel, ensuring high availability and fast load times.

KEY ACHIEVEMENTS

- 

Portfolio Deployment & Integration

Architected and deployed a comprehensive professional portfolio via Vercel, showcasing production-ready, full-stack applications like SKILL BRIDGE and VOCABERRY.
- 

Advanced AI Training Completion (Claude 101)

Successfully completed specialized Claude 101 technical training, demonstrating a commitment to mastering cutting-edge Large Language Model (LLM) integrations.

SKILLS

- Python JavaScript SQL Java C++
- HTML5 CSS3 React Node.js
- RESTful APIs System Architecture Design
- Firebase (Firestore, Authentication)
- MongoDB Atlas Supabase Vercel
- Google AI Studio Anthropic
- GitHub Copilot Applied AI Workflows
- Git/GitHub Postman
- System Documentation (Data Flow & Use Case Diagrams)

EDUCATION

- Bachelor of Engineering, Computer Engineering - Pursuing**
NEOTECH TECHNICAL CAMPUS
📅 07/2026 - 05/2029 📍 Vadodara, India
- DIPLOMA IN ENGINEERING, Information Technology**
Parul University
📅 07/2023 - 05/2026
